Both films will have Turkish and English subtitles and audio description. Turkish Sign Language interpretation will be available throughout the event.

You're invited
CAM at COP31

Two films. Then we open the mic.

Join us on 15 November for a special CAM screening featuring two films by civil thinkers.

What remains of a way of life when a forest burns? In **Daralma, Nazım Güveloğlu** follows the nomadic Yağal family and their goats after they lose their winter grazing grounds to the 2022 wildfires.

Who gets to shape a city? In **Şehir Bahçeleri, Nur Bardakçı** follows residents in different cities as they work together to change the places they call home. Their efforts show what it means to claim the right to the city in everyday life.

Then we'll **open the mic.** What do you bring to the climate table? Sivil Düşün participants will get the conversation started by sharing what they've learned through their own work. Bring your own stories, questions and ideas.
